Ted Huntington, United States, 2012. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book is a must read for those people who want to know the actual truth about the universe, and in particular those who think that most of the popular scientific theories being passed off on the public are far removed from the truth. This book will shake the foundations of science, and reshape the official explanations about most of what we know. Huntington has a special talent for finding shockingly simple truths. He starts by explaining that all matter is made of material light particles (including anti-matter and all subatomic particles), shows why the archaic electromagnetic theory of light is false, disproves the expanding universe theory with a few simple pictures, describes the possibility of neuron reading and writing, that a neutron is probably just a hydrogen atom, and many more important science truths. But beyond the shockingly simple scientific truths are many shockingly simple but unheard of social ideas like full and constant democracy, total freedom of all information, and focusing mainly on stopping violence. Huntington is the first person in the history of Earth to tell the public the truth about our future as a star cluster, that globular clusters are the result of the natural selection of highly adapted organisms, that humans will use atomic transmutation to convert trash into air and water, that humans will reach the center of Earth, and that probably all the matter of the planets will ultimately be consumed, among many other ideas. It sounds like a far-fetched grandiose claim, but if not this book, then these ideas Huntington is talking about are clearly going to be iconic and epochal, and are certainly going to change the paradigm...
