

Passive and Active Network Measurement: 10th International Conference, Pam 2009, Seoul, Korea, April 1-3, 2009, Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 250 pages. Dimensions: 9.2in. x 6.2in. x 0.7in. The 2009 edition of the Passive and Active Measurement Conference was the tenth of a series of successful events. Since 2000, the Passive and Active Measurement (PAM) conference has provided a forum for presenting and discussing innovative and early work in the area of Internet measurement. This event - cuses on research and practical applications of network measurement and an- ysis techniques. The conferences goal is to provide a forum for current work in its early stages. This years conference was held at Seoul National University in Seoul, the 600-year-old capital of Korea. PAM 2009 attracted 77 submissions. Each paper was carefully reviewed by at least three members of the Technical Program Committee. The reviewing process led to the acceptance of 22 papers and 2 demos. Demos are a novelty of this years PAM. The goal of demos is to present measurement tools, which can be so useful for our community. The papers and demos were arranged into nine sessions covering the following areas: routing and forwarding; topology and delay; methods for large-scale measurements; wireless; management tools; audio and video trac; peer-to-peer; trac measurements; and measurements of anomalous and unwanted trac. The technical program of the conference was complemented by a half-day PhD student workshop with poster presentations and a

Reviews

Extremely helpful to any or all category of individuals. It really is rally fascinating throgh studying time period. I am just quickly could possibly get a pleasure of reading a composed ebook.
