

Simple Nature Experiments with Everyday Materials

By Anthony D. Fredericks

Goodwill Publishing House, New Delhi, India. Softcover. Book Condition: New. Have fun exploring nature's secrets with dozens of great experiments and activities on: Soil and rocks-make your own bricks, and grow a crystal garden. Water -create an ocean in a soda bottle, and see if water in a nearby stream is polluted. . Plants - sprout your own seeds, and find out how a plant carries water and nutrients to all its parts. Animals - preserve a spider web, and make a bird feeder to attract feathered friends. Ecosystems - create a woodland environment right in your home, and find out what "biodegradable" means. Conservationism- find out how much air pollution is around your house, and see why acid rain is a serious problem. With plenty of did-you-know facts, illustrations; and creative projects, youll have a great time discovering amazing things about nature! Printed Pages: 128.
