Createspace, United States, 2014. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.Universal relativity using the opposite approach makes conservation of the circle easy to observe as the basis for everything. Originally documented as a physics hypothesis in 2002. Based on ancient divination (modern name is randomization), cave dweller observation (duplication), and complementary complementarity (unification), as a two and-or three state system. Basis for all symbolic systems including universes at any scale. Definitely a novel idea in 2002. For most, even so, today. Even though, as you read through it, you ll see, it is extremely obvious. Thus, 50-50 basis, everything. Two constants in nature, light, movement (stillness). Symbolic systems prove reality is circular.
