

Livestock-crop Production Systems and Livelihood Development

By R.K. Mishra

Atlantic Publishers & Distributors (P) Ltd, 2007. Hardcover. Book Condition: New. India's livestock sector has been growing at an impressive rate of about 5 to 6 per cent a year. Livestock sector plays a significant role in supplementing family income and generating gainful employment in the rural sector, particularly among the landless, marginal and small farmers and women, besides providing cheap nutritional food to millions of people. Livestock has been an integral part of the farming systems in India, particularly in Orissa, since time immemorial. It is pursued as a subsistence occupation to agriculture mainly to provide food for human consumption, draught power and obtain dung manure for crop production. Livestock rearing is closely integrated with crop raising activities. There is a need to enhance the productivity of livestock sector and crops through appropriate technological interventions to ensure transformation of livestock sector towards commercialization. In this pioneering study an attempt has been made to explore the issues in sustainable development of livestock-crop production systems with a view to ensure food and livelihood security. Sincere efforts have been made to ascertain the potential of livestock sector for increasing income and employment through adoption of improved technology in various livestock-crop production systems...
