Duke University Press. Paperback. Book Condition: new. BRAND NEW, Perspectives on the Global Crisis: A Special Issue of SAQ, Moishe Postone, This special issue examines the global economic crisis in systemic terms that encompass economic, social, and cultural dimensions of contemporary life. The essays analyze not only the nature of the crisis but also the possibilities of transformative action. One contributor evaluates the historical structural causes of the contemporary crisis to propose future tactics for the Left in promoting egalitarian and locally autonomous and self-sufficient economic practices. Another explores crises in the global pharmaceutical industry, particularly in India and the United States, and the inherent structures of global capital and biocapital through which health itself becomes a source of capitalistic value. Another essay reads the current credit crisis as a way to illuminate how deeply financial markets are embedded in the social fabric of work, ritual, and play and how the persistent failure to regulate market rule has led to an endless cycle of crisis-induced and crisis-inducing restructuring of policy. Together, the essays reinvigorate the study of global and long-term historical processes and structures. In this issue's special topical section, "Against the Day," edited by Priyamvada Gopal, contributors analyze the current assault on higher education in Great Britain, including dramatic budget cuts and tuition increases, the resultant student protest movements, and the future of the humanities.
